EXPERIENCE

DataInsight

Python Developer

Moscow

August 2022 - Present

- Development of parsers. Development and maintenance of parsers for various web resources, capable of processing over 2 million pages per day, with the potential for further scaling.
- Service development. Creation of a proxy rotation and monitoring service to ensure stable operation of a dozen parsers.
- Database management. Designing database structures, writing SQL queries for data storage and retrieval, collaborating with analysts to provide necessary information.
- Web interface development. Creating internal interfaces on FastAPI for interaction with parsers and databases.

Pioner

Manager-Designer

Moscow

July 2010 - September 2021

- Client communication. Negotiating with clients, 3D modeling of furniture, designing products, and sending them to the workshop for production.
- Process optimization. Developing Excel macros to automate routine tasks and improve productivity.
- Project management. Leading the development of an order tracking system, including finding and liaising with a programmer.

SKILLS

Programming language:	Python, Basic JS, Basic TS
Frontend:	HTML, CSS, SASS
Databases:	SQL, Mongo, Redis
Web-framework:	FastAPI
Web-scraping:	Scrapy, Android emulator, Burp, Selenium
Data Analysis:	Pandas, Basic ML
Councurrency programming:	Asyncio, Multithreading
Testing:	Playwright, Pytest
Other:	GIT, Docker, Linux, Nginx
Soft-skills:	Google, blind-printing

EDUCATION

Moscow State University

B.A. Ecology

Moscow

Sep 2007 - Jun 2011

COURSES

Interactive SQL Simulator

2023

Web parsing

2023

Asynchronous python

2023

FastApi - backend development

2023

Multithreading python

2024
